## *Extra Features For Sure!*

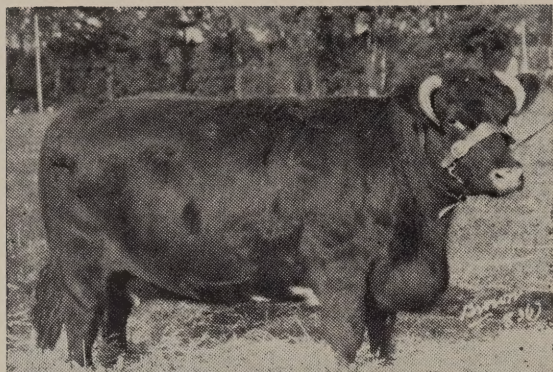

The Broadlawn Herd was built on a foundation of the best individuals and choicest breeding that could be found in the U. S., Canada, and Scotland. The productivity of the herd has been such that a production sale was made possible. In order to make this not just an ordinary production sale, the offering was selected with a view to making it attractive to the buyer in every way. Every animal the owners would have preferred to retain in the herd. Just look at the attractions!

The proven young sire, BROADLAWN CAPTIVATOR, the likes of which are rarely offered for sale; the two choice imported-in-dam heifers which should have been retained in the herd; and the entire 1955 calf crop, without reservations. Then, in addition, there are 15 females out of imported sires, and 2 out of both imported sires and dams. Nearly all are grandsons and granddaughters of some of the great bulls of the breed. Also, remember that this herd produced the 1956 Champion Pen of Three Bulls at Denver, and 7 females by the same sire sell.

It is a well rounded sale of top bulls, good cows with calves, choice heifers, some of which are real 4-H prospects. New herds can be founded, and established herds strengthened in this sale, OCTOBER 3 at BROADLAWN FARM.

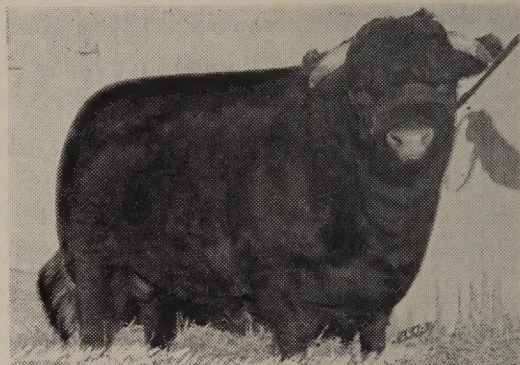

ALBERT J. HAMANN,  
Sale Manager.

(Left)—CALROSSIE LILLIAN PAULINE. Top female in the 1950 Calrossie Sale. She is the dam of Imp. Bapton Baronet.

**BROADLAWN CAPTIVATOR**—One of the really top proven young bulls ever to be offered for sale. His sire, Sandoon Captivator, was a three-fourths brother to the famous Calrossie Welcome. His dam has always been considered by many one of the great cows of the Shorthorn breed. Her dam in turn was the top cow in the Grieg Dispersion at \$1,750. This bull has a great head, burly neck, is thick, great quartered and has a set of good legs that set out on each corner. Anyone looking for an outstanding white bull can end his search here. Only three years o'd, this bull has made a great record in the Broadawn herd to appreciate the outstanding individuality of this bull, he must be seen. To see the 9 bulls and 10 heifers by him that sell in this sale will convince everyone of his ability as a sire. Someone can settle his herd bull problem here.

On her dam's side she has the very best of Pol'd breeding. She sells with a February 1956 red Pol'd bull calf at foot by the outstanding sire, Broadawn Captivator, and is again we'll a'ong in calf to the same service. This cow should go to a good Polled herd, and the very good rugged bull calf at foot should head a good Polled herd.

UPPERMILL PRINCESS ROYAL—This outstanding imported in dam heifer should have been retained in our herd. However, we wanted to have this sale have something extra so we consented to sell her as a sale attraction. This heifer is good headed, thick, smooth, deep bodied and low set. Her breeding is the very best that can be had in Scotland. Her sire, Cruggleton Prentice, has sired many top cattle in Scotland and is of straight Marshall breeding, and a grandson of the two great sires, Cruggleton Annex and Cruggleton Perfect. Her Princess Royal dam is a half sister to the great sire, Gallant Marshal, whose get made the outstanding record in the 1956 Perth sale by siring the \$25,000 top bull, both the reserves junior and senior champions, and all the winning bull groups. The individuality and breeding of this heifer make her a foundation female for the best herds in the land. She sells open.
